FCC Mailroom

~~DOCKET FILE COPY DUPLICATE~~

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

Signed,

Your Name: Erwin M. Sensenig Date: October 1, 2018

Dear Sirs. This line is very worthwhile to us. Please let's keep as a free service. We use it almost every day as a cheer up in our life. No children at home, this is very needful to listen to many others speaking from friends across the miles, prayer group, Church group. Some of our children live out-of-state. Cut-off would be devastating in our lives. Keep This, Thank You!

WC Docket # 18-155 regarding; updating the intercarrier
Compensation Regime including conference calling services.

We count on conference calling & recordings, to find out about sickness,
accident & deaths or good reports, of acquaintances & friends all across
America. so we appreciate this service.

Dear FCC,

This petition is being sent in regards to WC Docket number 18-155 updating the interstate Compensation Regime including Conference Calling services. It is a great concern to me as my handicap husband has been spending alot of time listening to news we would not get otherwise, also encouraged from other handicap folks and singing & sermons. We are not using this service for any material gain and feel it is like unlimited calling. Will this be also taken from us? Cell phones do not work good enough here where we live. We strive to be good citizens & respect our leaders and pray for them.

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

Please do not take away my free conference calling services. I use it to listen to news calls. Singing calls on the church lines, handicapped lines. Find out about news from relatives which otherwise might not find out until days, or sometimes weeks later. Church calls when unable to attend church. Thank-you Thelma Zook.

P.S. I always pay my phone bill on time.
